

## Matt Irwin Photograpgy Screen Saver Installation Instructions for Windows XP users

1. Install Screen Saver as per instructions by double clicking on SETUP after inserting CD-ROM.
2. Follow installer instructions.
3. When installer finishes open Windows Explorer.
4. Open the WINDOWS folder and find files named MIPSaver (Depending on the options selected when installing, there could be two or three)
5. Copy these files into the WINDOWS/SYSTEM32 folder.
6. Return to the WINDOWS folder and find files called SAVER32 files (There are normally two)
7. Copy these files into the WINDOWS/SYSTEM32 folder.
8. Note the MIP Screen Saver will not show up in the Windows screen saver list, but the MIP Screen Saver will run the next time the screen saver activates.
